## Technologies

Languages	Frameworks and Libraries	IDEs	Version Control	Methodologies
C#	.NET	jQuery	Github	Agile
SQL	ASP.NET	React	Git	Scrum
HTML	Entity	AJAX		DevOps
CSS	MVC	Node.JS		
PHP	MVC Code	Apache		
JavaScript	First Razor	Bootstrap		

## Coding Projects

### JavaScript, HTML and CSS

Created a site where users can customize a spooky pizza order and then calculate pricing. Uses React and showcases CSS techniques learned on Instagram.

### SQL

Wrote and populated a high-functioning database for a network of libraries with many books at different locations. Implements Primary Keys, Foreign Keys and Inner Joins.

### C#

Created several C# programs implementing virtual and abstract methods, enumerations, interfaces, libraries comprised of classes, exception handling, overloads, database access and integration, constructors, parameters and more.

### MVC

Worked in the MVC framework model to write a variety of programs, including code first programs with database integration.

## Tech Work Experience

### Software Development Intern

#### Prosper IT Consulting

2019

Started a code first MVC app using C# implementing SQL database integration for Prosper IT that functionally allowed employees to be clocked in and out, manage their schedules and request time off. Was instrumental in the planning stages and laid a strong, debugged foundation for a successful minimum viable product. Created a pleasant and intuitive mobile responsive user interface using HTML and Razor syntax, additionally created and configured seed users to run on startup.

## Additional Work Experience

### Paradise Shells

2014 - Current

Jeweler, social media marketing. Worked directly with clients to create upscale bespoke pieces. Production limited to focus on programming.

### Aloha Scuba

2015 - 2017

Geared up new dive students; helped with fin, mask and wetsuit sizing. Assisted in daily organizational tasks and merchandise curation.

## EDUCATION

### The Tech Academy

C# and .NET  
Developer Boot Camp

Completed a comprehensive full stack bootcamp focusing on computer science, HTML, CSS, JavaScript, C#, SQL, ASP.NET, MVC, source control, scrum, agile, object oriented programming, debugging, web design and web app development.

### Punahou School

3.7 GPA  
Graduated Class of 2014

Thrived in an internship opportunity at Olivet Baptist Preschool working with young children due to innate patience, teamwork and leadership characteristics.

### Academy of the Pacific

4.0 GPA  
National Merit Scholar

Worked daily with people with a wide variety of learning differences and developmental disabilities. Personally commended by head of school for assisting in teaching marine biology for a quarter semester and leading the class in producing a marine ecosystem ebook.
